

GO Whitby • Parking Facility

DESIGN TEAM:

Owner: GO Transit

Structural Engineer: Read Jones Christoffersen

Contractor: Kenaidan Contracting

Mechanical Engineers: MCW Consultants Ltd.

Electrical Engineers: MCW Consultants Ltd.

PROJECT DESCRIPTION:

The GO Whitby Parking Structure is located at the East lot of GO Transit's Whitby Station. The 4-level parking structure will provide a total of 1,392 parking spaces for GO patrons.

The project is a design / build effort with Kenaidan Contracting Ltd, Read Jones Christoffersen and MCW Consultants Ltd, partnering through design and construction.

Construction began in the fall of 2008 and is scheduled for completion in November 2009. The superstructure for the garage includes 4 levels of exposed aggregate pre-cast elements, a feature stair tower and an enclosed pedestrian walkway linking the parking facility with the existing station Entrance.
